## Letter of Recommendation

Establishing cooperation with Skalium turned out to be a magnificent way to increase the number of Clients acquired from the web. We strongly recommend Skalium as a honest and trustworthy business partner.

Thanks to campaign optimization, we reached a large group of recipients what is frequently a key to success in our trade. Skalium staff has determined adequate advertising targets which helped in acquiring a bigger number of Clients. They have extended our Google Ads strategy by implementing Google Display Network campaigns which have significantly increased our visibility on the Internet. What influenced the positive image of Skalium and needs also to be emphasized is high quality Client support by the campaign maintainer.

We congratulate Skalium on brilliant Client care, professional approach to everyday duties and effectiveness of the undertaken operations. Moreover, we wish Skalium further business success.

Company's Representative
