Letter of Recommendation

Hereby, we judge our cooperation with Skalium as extremely profitable for our enterprise. What is more, we claim Skalium to be an efficacious specialist in terms of Google Ads campaign optimization.

A precise analysis of the account and the ads led to creating a professional and solid campaign's structure, which directly resulted in the campaign's success. However, what drew our closest attention was a high number of conversions despite the fact our branch is currently struggling with a difficult season.

Therefore, we congratulate Skalium on honesty, technical knowledge, professional Client service and wish many more successful partnerships.

Company's representative
