Letter of recommendation

I fully recommend Skaliu as a reliable business partner, because thanks to the cooperation I have quickly gained benefits for my own company.

In accordance with the recommendations of Skaliu representative, an innovative solution was used, which is CPC optimization using Skaliu robot. The use of AI brought the expected result, we reduced advertising expenditure by approx. 25%, without loss from the conversion side.

I would also like to congratulate on the excellent customer service - the contact with the campaign supervisor was always good and in my opinion was with the frequency appropriate to maintain full control over the activities carried out.

Korneliusz Rduch
