### **Letter of Recommendation**

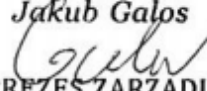

With full conviction we recommend highly professional services of Skalium to every enterprise which looks for safe and effective solutions in terms of Google Ads.

What needs to be emphasized is an exemplary customer care, thanks to which we could control all aspects of the campaigns and implement beneficial changes to the advertising strategy.

Moreover, maintaining satisfying results would be impossible without a very professional consultancy regarding campaign budgets. It enabled us to invest financial resources efficiently. Also, we would like to mention the team's commitment to increasing the number of conversions which was the main aim of the campaign.

The foregoing elements definitely had a positive influence both on the campaign itself and on the quality of the cooperation. Hereby, we congratulate Skalium on their high effectiveness, adequate business approach and commitment. We wish you continued success.
